Pegasus Class Newsletter End of Term 4

Dear Parents and Carers,

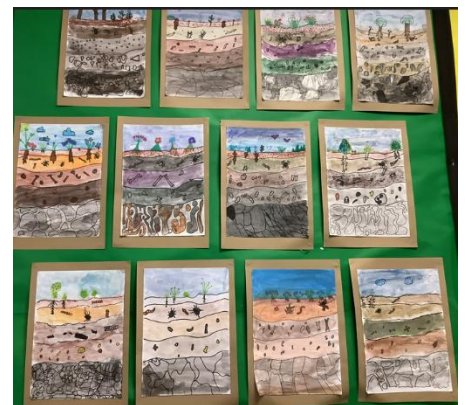

This term has been short and sweet but nevertheless quite tiring for children and staff alike. Our topic of 'The Stone Age' inspired the children in many ways and it was heartening to have them do extra work at home without being asked to do so! Our learning culminated in the creation of a diorama about the Stone Age. Here we could see dug-out boats, campfire with meat roasting over it, tent-like structures covered in animal skin, caves and more.

The children's paintings of Stonehenge in the sunrise/sunset formed a suitable link to this topic.

In science we explored rocks and soils and what we might find below the ground dating back to the Stone Age. Expressing their learning through art produced some delightful paintings and gave the children the experience of using different types of paint.

In Maths we have been learning about time and money and these are aspects of the curriculum that always can be practised at home as well, often in a playful manner.

Looking ahead to next term, our topic will be 'Reduce, Reuse, Recycle' which will tie in nicely with Earth Day during this term.

Please make sure that Reading Records are brought to school every day and that you practise reading and spelling at home. This will help your child to build solid foundations in their learning journey.

I am sure we are all looking forward to a well-deserved break and hopefully will be able to enjoy a relaxed and sunny Easter. Looking forward to seeing you all in term 5.

The Pegasus Team: Mrs Nathanson, Mrs Horrocks, Mrs Whittock and Mrs Ford
