

PHOENIX CLASS END OF TERM 4 NEWSLETTER 2023-24

Dear Parents and Carers,

In Science this term we have been learning about the digestive system and how our food breaks down in our mouth to our stomach through the oesophagus. The children enjoyed watching what happens to bread sticks when they are in our stomachs. We used a plastic zip bag and vinegar to see the process.

In Geography, we made a tsunami to see how the land moves with a large volume of water, and we learnt how a tsunami was caused.

The children and I had a great time learning how to play tag rugby from Mr Solly. We learnt how to throw the ball using different techniques, and how important it is to work as a team to make successful passes. We learnt about sportsmanship and it was a real pleasure seeing Phoenix supporting each other. Thank you again, Mr Solly!

In Term 5, we will be swimming at the Olympiad on Wednesdays. This will start the first week back, so please ensure your child has a swim hat for the lesson. Children will be in their school uniform to go swimming. PE will every Friday, and we will be doing tennis this term.

We hope you have an enjoyable break and we look forward to seeing in Term 5.
Mrs Harris, Mr Miles and Mrs Pym
