Chameleon Class Newsletter End of Term 5

Dear Parents and Carers,

This has been such an important term for the Year 6 children in the school, who approached their SATs tests with a positive and determined attitude. We are so proud of all of their hard work and resilience.

We linked our science and art topics this term: in Science we learned about food chains and animal adaptations to different habitats. In Art we studied the work of several Wiltshire artists and how they approach landscapes; painting their representations of the natural world. The children experimented using acrylic paint pens as well as water colour pencils, blendable oil pastels and even coloured chinks. Our art is proudly displayed in our classroom as well as in the hall for everyone to enjoy.

We were lucky to have the opportunity to visit Gardners Farm in Hullavington, where we delved deeper into the world of dairy farming and mini beasts. We heard about the mechanics of dairy farming and how to care for the calves, as well as about the range of dairy products that are produced and sold. We even had a go at making our own butter!

Next term our topic will be based on local geography, so if you have any books about the area of Chippenham or Kington Langley, these would be greatly appreciated in class to share with the children. Please can the children practise their lines/songs for the play over the break.

Have a lovely half term and we are looking forward to welcoming the children back on Monday 1st June 2026.

Best Wishes from the Chameleon Team – Miss Ford and Mrs Pym.
